INDEX TO VOLUME V, 1951

ABO groups of infants and children dying in west of Scotland (1949-1951), 223
Absenteeism, in schoolchildren, 145
Age, maternal, and birth weight, 104
Anencephalus, incidence of, 254
Australia, life-table statistics, 162

Birmingham, malformations of central nervous system in, 254
— maternity and child welfare records, 41
—, observations on all births in, in 1947. II. Birth weight, 98; III. Survival, 177; V. Birth weight related to economic circumstances of parents, 259
—, pyloric stenosis in, 578 cases, 185
—, stillbirths in, 230
Birth, human sex ratio at, secular changes in, 91
— rank and birth weight in Birmingham, 1947, 259
— —— and congenital malformations, 255
— ——, effect on birth weight in South African babies, 247
— weight, effect of economic circumstances of parents on, in Birmingham, 1947, 259
— —— in Birmingham, 1947, 98
— —— and duration of gestation, 99
— —— and maternal age, 99
— —— and parity, 99
— —— and place of birth, 99
— —— of South African babies, 113, 247
— ——, sex ratio of stillbirths and, 229
— —— and survival, 177
Births in Birmingham, 1947, 98, 177, 259
—, illegitimate, sex ratio, 93
Blood groups, 223

—— ——, risk of infection at work, 209
—— ——, spread of, from house to house, 13
—— ——, spread of, from house to house, statistical appendix, 27
Tuxford index, 150
Twin pregnancy, stillbirth risk in, related to sex and maternal age, 34

U.S.A., life-table statistics, 162

WEBB, JOSEFINE, and STEWART, ALICE: Spread of tuberculosis from house to house, 13
Weight, average, of schoolchildren, 150
—— gain in first year of life, 1

INDEX TO SUBJECTS OF ARTICLES ABSTRACTED

ABO and Rh blood groups in Greece, 272
— incompatibility associated with erythroblastosis foetalis; spherocytosis and increased fragility in, 202
Abortion, frequency of, 69
—, legally induced, 566 cases, 142
—, threatened, salvage possibilities in, 142
—, 2,665 cases, 142
—, unintentional, in 1,497 planned pregnancies, 70
Adolescence and pregnancy, 137
Age, old, mental breakdown in, 277
Aged, effect of body exposure to cold in, 123
— sick, hospital treatment of, 277
Amenorrhoea, functional, under war conditions, 70
— in concentration camps, 208
Anaemia, secondary to familial (hereditary) defect in haemoglobin synthesis, 201
—, haemolytic, familial nonspherocytic, 130
—, hereditary spherocytic, in the Negro, 130
—, Mediterranean, genetics of, 271
— ——, in children of non-Mediterranean ancestry, 199
—, pernicious, gastric tumours associated with, 276
—, sickle cell, 130, 201, 271
Anomalies, congenital, of the hand, 275
— ——, studied by epidemiological method, 127
— ——, oesophageal, 204
Anopheles funestus and *A. Gambiae*, 199
— *letifer* and *A. maculatus*, DDT used against, in Malaya, 200
Antihistamines and common cold, 132, 268
Antistin and common cold, 131
Appendicitis, acute, in children; 1,165 cases, 267
—, social pathology of, and recent surgical experience, 133
Arnold-Chiari syndrome, 203
Asthma, bronchial, ventilatory tests in, 66
Australia, carcinoma mortality in, 134
—, Western, rubella retinitis in, 126

Belfast, poliomyelitis in, 270
Birth injury, intracranial, and management of labour, 141
— ——, mental deficiency due to, statistical aspects, 66
— ——, prognosis after, 67
— weight and physical growth; statistical study, 206
— ——, sex, race, foetal maturity and, 136
Blood groups, A, B, O, and Rh, in Greece, 272
*— ——, combination of, in 475 cases in London, 144
— ——, Lutheran, inheritance of, in 47 English families, 128
— —— of mental defectives and maternal parents, 272
Bowman's membrane, maldevelopment of, with gargoylism, 203
Breast feeding in Great Britain in 1946, and health and survival of children, 143 *bis*

Caesarean section, 69, 141
California, Q fever in, 269
Carcinoma, incidence in American males, 135
—— mortality in Australia, 134
——, stomach, in England and Wales, 134
Caries, dental, in 5-year-old children, 72
—— ——, and fluorination of water supply, 124 *bis*
Cataract, hereditary, 71
Census, medical significance of, 278
Central nervous system, congenital malformations of, due to early foetal virus infection, 67
—— —— ——, —— ——, seasonal incidence, 203
Children, acute appendicitis in, 1,165 cases, 267
——, congenitally hypothyroid, mental achievement of, 275
——, 5-year-old, teeth of, 268
——, growth, accelerated, of, 66
——, intestinal parasitism in, 267
—— of eclamptic mothers, 128
——, pneumonia, prognosis of, in, 133
——, sleep problems of 3-year-old, 268 *ter*
Chronic sick, care of, 131
Circulatory system, diseases of, in Norway, 200
" Climacteric, male ", 280
Cold, body exposure to, effect in aged, 123
——, common, treatment, 131, 132, 268
Colour blindness, congenital total, and otosclerosis, 130
Cretins, 275

DDT used against *Anopheles* in Malaya, 200
Deafness, congenital, rubella and, 126
——, nerve, inherited, 126
——, nuclear, and nerve deaf child, Rh factor in, 127
——, perceptive, and neonatal jaundice, 126
Deaths, *see* Mortality
Delivery, *see* Labour
Diabetes and pregnancy, 136, 276
*——, detection of, in a nutrition survey, 208
*——, 6,000 cases, statistical study, 208
—— mellitus, degenerative changes in young patients in relationship to level of control, 64
—— ——, familial distribution of, 130
—— ——, inheritance of, 201
—— ——, long-standing, cardiovascular and renal findings in, 64
—— ——, studies on; relation of stress to concentration of ketone bodies in the blood, 64
Diphtheria, age distribution in U.S.A., 134
——, immunization against, and poliomyelitis, 65, 270
——, mortality from, 133
—— toxoid, 269
Drugs, spasmolytic, in premature rupture of membranes, 207
Dysostosis multiplex (gargoylism) with maldevelopment of Bowman's membrane, 203

* Title only

Eclampsia, incidence of, in World War II, 207
——, maternal, development of children after, 128
Endoanatoxins, typhoid and paratyphoid, in enteric fever, 269
England, carcinoma of the stomach in, 134
——, medical reform in, 1844-5, 71
Enteric fevers, 269
Enuresis in adults and abnormality of sleep, 131
Epidemiology, 269, 270
Erythroblastosis foetalis associated with ABO incompatibility, spherocytosis and increased fragility in, 202
—— —— due to Rh incompatibility, 35 cases of, in Tübingen Gynaecological Clinic, 128
—— ——; further observations on kernicterus, 202
—— ——, infants with, treated by exchange transfusion, influence of sex of donor on survival of, 202
—— ——, prognosis in, 127
Erythrocytes, survival of, in normal and leukaemic subjects, 273
Exposure to cold, effect of, in aged, 123
Eyes, congenital malformations of, in mental defectives, 125

Feeding, self-demand, in first week of life, 143
Fertility in women, time of optimal, 138
——, periodic, in women, cyclic analysis with aid of temperature measurement, 138
Fibroplasia, retrolental, as acquired anomaly of the foetus, 127
Fitness, physical, influence of sex, physique, and muscular development on, 66
Fluorine in drinking water, and teeth, 124 *ter*
Foetus, anomaly of, 127
——, haemopoiesis and siderosis in, 273
——, maturity of, and mortality rate, 206
——, virus infection of, malformations due to, 67
France, Seine Department, poliomyelitis in, 1935-50, 270

Gargoylism, *see* Dysostosis multiplex
Genetics, *see* Heredity
Goitre, endemic, in N.E. Switzerland; prophylaxis with iodized salt, 200
Gold Coast village medical survey, 198
Greece, blood groups A, B, O, and Rh in, 272
Growth accelerated, in newborn and young children, 66
——, physical, and birth weight, 206

Haemophilia, differential diagnosis, on biological grounds, 202
——, female carrier of, 202
Haemopoiesis and siderosis in foetus and newborn, 273
Haemorrhage, genital, in menopause, 278
——, postpartum; analysis of 6,000 cases, 206
Haemorrhagic disease of newborn, vitamin K in, 202
Hand, congenital anomalies of, 275
Heart disease, statistical studies of; race and sex differences in mortality trends, 277
Heredity and blood groups, 128, 129
—— and cataract, 71
—— and diabetes mellitus, 130, 201
—— and haemolytic anaemia, 130, 201
—— and leg ulcers, 200
—— and leukaemia, 272
Heredity and Mediterranean anaemia, 271
—— and nerve deafness, 126
—— and peptic ulcer, 130
—— and sickle-cell disease, 130, 201, 271
—— and spina bifida, 201
—— and spherocytic anaemia, 130
Hirschsprung's disease, 204
Holland, tuberculosis in, 133
Hydrocephalus and spina bifida, *see* Arnold-Chiari syndrome
——, maternal nutrition and, in newborn rats, 68
——, vitamin B_{12} in prevention of, 274
Hyperplasia, cystic glandular, in the menopause, 279
Hypertension, essential, and personality, 125
Hypnosis in obstetrics, 140
Hypoprothrombinaemia, 202
Hysterectomy, 240 cases, 70

Immunization against enteric fever, 269
—— against whooping cough and diphtheria, poliomyelitis and, 65, 270
Infant mortality in Spain, 137
Infants, erythroblastotic, treated by exchange transfusion; influence of sex of donor on survival of, 202
——, intussusception in, 268
——, premature, clinical and pathological considerations based on 1,008 cases and 100 necropsies, 67
—— ——, mortality rate, influence of foetal maturity on, 206
—— ——, pathological findings in, 205
——, sleep problems of, 268
Inoculation and poliomyelitis, 65
Insecticide against *Anopheles*, 200
Intussusception in infants, 54 cases, 268

Jaundice, neonatal, and perceptive deafness, 126

Kernicterus, incidence of, in infants with erythroblastosis foetalis, 202
Ketone bodies in diabetic and normal human blood, 64
Kidneys, polycystic disease of, and spina bifida in one family, 201

Labour, factors in, and cerebral palsy, 275
——, hypnosis in, objective evaluation of, 140
——, insensible and total weight changes during, 141
——, occipito-posterior positions in; mechanism and treatment, 139
——, transverse presentations in; 131 cases, 140
Lactation, ovulation and, 68
Lansing poliomyelitis virus, 271
Left-handedness, psychological and educational problems of, 131
Leucotomy, prefrontal, follow-up of 330 cases, 124
Leukaemia, acute, natural history of, 272
——, familial, 272
——, survival of erythrocytes in, 273
London, poliomyelitis in, 1949, 198

Malaria eradication scheme, Mauritius, 199
Malaya, DDT as residual insecticide in, 200
Malformations, congenital, and external factors, 203
—— —— and maternal states, 274
—— —— and retrolental fibroplasia, 127

Malformations, congenital, in teeth and eyes of mental defectives, 125
— —— of central nervous system, due to early foetal virus infection, 67
—, ——, —— —— ——, seasonal incidence, 203
— —— of the hand, 275
—, foetal, incidence of, in 1945-49, 203
Mauritius, malaria eradication in, 199
Measles, mortality from, 133
Menarche, age of, 207
Menopause, genital haemorrhage in, and cystic glandular hyperplasia, 278
Menstruation and ovulation, psychopathology of, 279
—, anovulatory, in women, 208
—, disturbances of, basal temperature curve in diagnosis of, 279
—, tension preceding, 125
Mental defectives, blood groups of, and their maternal parents, 272
— ——, congenital malformations in teeth and eyes of, 125
— deficiency due to birth traumas, statistical aspects, 66
Milk and poliomyelitis, 270
— and Q fever, 269
Mortality, foetal and newborn, weight in relation to, 136
— from carcinoma in Australia, 134
— from circulatory diseases in Norway, 1940-1945, 200
— from diphtheria, 133
— from heart disease; statistical studies, 277
— from puerperal fever, 136
—, infant, in Spain, 137
—, neonatal, and stillbirths; 44 cases, 137
— —— and birth weight, 136
— —— and foetal maturity, 206
— ——, 6-year review, 68

Negro, hereditary spherocytic anaemia in, 130
Newborn, accelerated growth in, 66
—, breast feeding of, in Great Britain, 143
—, haemopoiesis and siderosis in, 273
—, haemorrhagic disease of, vitamin K in, 202
—, mortality of; 6-year review, 68
—, ——, weight in relation to, 136
—, prognosis after birth traumas, 67
—, self-demand feeding of, in first week of life, 143
Norway, mortality from circulatory diseases in, 200
Nutrition, common errors in, 123
—, maternal, and hydrocephalus in newborn rats, 68
*— survey, and detection of diabetes, 208

Obesity, maternal, 69
Oesophagus, congenital anomalies of, 204
Otosclerosis, congenital total colour blindness and, 130
Ovulation and menstruation, psychopathology of, 279
— in lactating women, 68
— and sperm survival, 280
— time; correlation between basal temperature, endometrium and ovary, 207
— ——, sexual cycle, and time of optimal fertility in women, 138

*Palsy, cerebral, conservative treatment, 275
—, ——, in infants, from complications of pregnancy and parturition, 275
Papaverine treatment of pylorospasm in young infants, 36 years' experience, 205
Parasites, intestinal, in children of school age, 267
Paratyphoid endoanatoxins and enteric fever, 269
Parturition, *see* Labour
Pelvimetry, *x*-ray; study of 1,000 cases, 140
Peptic ulcer, hereditary factors in, 130
*Performance, human, researches on measurement of, 72
Physique, influence of, on physical fitness, 66
Pneumoconiosis, coalworkers', prevention of, 278
Pneumonia in infancy and childhood, prognosis, 133
Poisoning, attempted suicide by, 71
Poliomyelitis and diphtheria immunization in Belfast, 270
—— and immunization against whooping-cough and diphtheria, 65
—— and inoculation, 65
——, hospital enquiry, 1949, 198
—— in London, 1949, 198
—— in pregnancy, 136
—— in semi-closed communities, 270
—— in France, 1935-50, 270
——, milkborne epidemic of, 270
——, subclinical, incidence in an urban area, 135
—— virus, Lansing, age incidence and seasonal development of neutralizing antibodies to, 271
Pregnancy and parturition as factors in development of cerebral palsy, 275
—— and adolescence, 137
——, diabetes and, 136, 276
—— diagnostic centre, Watford, 138
—— in girls under 17, studies of, 137
——, poliomyelitis in, 136
——, rubella in, and termination of, 126
Prematurity, foetal maturity and fatality rate, 206
——, incidence and obstetrical considerations, 205
——, pathology of, 67
Primiparae, elder and younger, compared, 206
Prolapse, pelvic; 500 operations on women over 60, 135
Psyche and blood pressure, 125
Psychosurgery, development of, 124
Puerperal fever, mortality, possibility of reducing, 136
*Pyloric stenosis in four first cousins, 276
*—— —— in twins, 276
—— ——, latent, 275
Pylorospasm in infants, and papaverine, 205

Q fever in California, epidemiology, 269

Race, sickle-cell anaemia and, 130
——, birth weight and, 136
Radiography, mass, in Northamptonshire boot and shoe industry, 278
Radioiron in haemolytic anaemia, 201
Radiology in detection of tuberculosis; comparative results for whole population and potential contacts, 65
Retinitis, rubella, in Western Australia, 126
Rh blood group in Greece, 272
—— —— ——, inheritance of, tested in 150 families, 129
—— factor determinations in University of Basle, 129
—— —— in nuclear deafness and nerve deaf child, 127
—— incompatibility, erythroblastosis foetalis due to, 35 cases in Tübingen, 128

* Title only

Rh-negative infants, normal, born to sensitized Rh-negative women, 202
—— —— primigravidae, follow-up of; development of Rh immunization, 128
—— —— women, sensitized, with normal Rh-negative children, 202
—— type D^u, 129
Rubella, and congenital inner-ear deafness, 126
—— in pregnancy, 126
—— retinitis in Western Australia, 126
Rupture of membranes, premature, spasmolytic drugs in, 207

Salt, iodized, in endemic goitre, 200
Scarlatina, mortality from, compared with diphtheria, 133
Sex and physical fitness, 66
——, birth weight and, 136
Sexual cycle, time of ovulation and time of optimal fertility in women, 138
Sickle cell anaemia and inheritance of sickling phenomenon, 271
—— —— —— associated with thalassaemia in a family of Sicilian ancestry, 201
—— —— —— in white race, 130
Sickling phenomenon, inheritance of, and sickle cell disease, 271
Siderosis and haemopoiesis in foetus and newborn, 273
Silicosis, work capacity in, estimated by spirometry during effort, 123
Sinusitis, frontal, 10-year study, 132
Sleep abnormality and enuresis in adults, 131
—— problems in first three years, 268
Spain, infant mortality in, 137
Sperm survival at estimated ovulation time; comparative morphology, 280
—— —— in women; motile sperm in the fundus and tubes of surgical cases, 280
Spherocytosis and increased fragility in erythroblastosis foetalis associated with ABO incompatibility, 202
Spina bifida and hydrocephalus, *see* Arnold-Chiari syndrome
—— —— and polycystic disease of kidneys in one family, 201
Spirometry, work capacity in silicosis estimated by, 123
Splenomegaly and leukaemia, effect of splenectomy, 273
Sterility, clinical and histological observations, 139
——, male, 280
Stillbirths and neonatal mortality in first 7 days of life; 44 cases, 137
Stomach, carcinoma of, in England and Wales, 134
*Strabismus, convergent, genetics of, 144
Suicide, attempted, by poisoning, 71
Switzerland, goitre in, 200

Teeth, congenital malformations of, in mental defectives, 125
—— of 5-year-old children, 268
Temperature, periodic fertility and, 138 *bis*
——, variations of, and menstrual cycle, 279 *bis*
—— and ovulation, 207
Tension, premenstrual, 125
Testis, absence of germ cells in, 280
——, sclerosing tubular degeneration of, 280
Tetanus, incidence and prevention, 198
Thalassaemia and sickle cell anaemia in family of Sicilian ancestry, 201
Thyroid deficiency, congenital, and mental achievement, 275
Thyrotoxicosis, familial types of, and tuberculosis, 200
Transfusion, exchange; influence of sex of donor on survival of erythroblastotic infants, 202
Tuberculosis, detection of, by mass radiography, in Northamptonshire boot and shoe industry, 278
*——, immunization against, in Australia and New Guinea, 144
—— in Holland, 133
—— in student nurses and medical students at University of Wisconsin, 199
*——, mass-examination for, in Copenhagen, 1947-8, 143, 144
——, pulmonary, radiological detection of; comparative results for whole population and potential contacts, 65
—— and familial types of thyrotoxicosis, 200
Tumours, gastric, and pernicious anaemia, 276
*Twins, pyloric stenosis in, 276
*——, uniovular, with growth disparity due to renal dwarfism, 208
Typhoid endoanatoxins and enteric fever, 269

*Ulcers, gastric and duodenal, aetiology of, occupational factors in, 208
——, leg, and heredity, 200
U.S.A., cancer in army, 135
——, diphtheria in, 134

Vaccination and enteric fever, 269
Virus infection, early foetal, congenital malformations of central nervous system due to, 67
Vitamin B_{12} in prevention of hydrocephalus in infant rats, 274
—— K in prevention of haemorrhagic disease of newborn, 202

Water, drinking, fluorine in, and teeth, 124 *bis*
——, total, in human body, 123
Watford pregnancy diagnostic centre; review of 1 year's work, 138
Weight, birth, and physical growth, 206
—— —— in relation to foetal and newborn mortality, 136
—— changes, insensible and total, during labour and delivery and gynaecological operations, 141
Whooping-cough, immunization against, and poliomyelitis, 65
—— ——, mortality from, compared with diphtheria, 133
Women, periodic fertility in, cyclic analysis with aid of temperature measurement, 138

X-ray pelvimetry, study of 1,000 cases, 140

* Title only
